# THE MARKET ADMINISTRATOR'S BULLETIN

OHIO VALLEY MARKETING AREA  
FEDERAL ORDER NO. 33

EASTERN OHIO - WESTERN PENNSYLVANIA MARKETING AREA  
FEDERAL ORDER NO. 36

VOL. XX-NO. 10

C. MACK ENDSLEY, *Market Administrator*

SEPTEMBER 1989

ISSUED FOR THE INFORMATION OF PRODUCERS WHO ARE NOT MEMBERS OF COOPERATIVE ASSOCIATIONS

## HALEY NAMED ADMINISTRATOR OF USDA'S AGRICULTURAL MARKETING SERVICE

WASHINGTON, Aug. 15--Secretary of Agriculture Clayton Yeutter named Daniel D. Haley administrator of the U.S. Department of Agriculture's Agricultural Marketing Service.

In making the announcement, Yeutter said, "Dan Haley is a welcome addition to the USDA team. As the second-ranking agricultural official in the State of California, he brings with him first-hand experience and knowledge of many complex farm programs that are imperative in managing AMS."

"Haley has worked closely with USDA personnel in the past and is familiar with the marketing functions and services AMS provides," Yeutter said.

Haley was appointed chief deputy director of the California Department of Food and Agriculture in 1987. In that senior position, he directed more than 2,500 state employees and was the key liaison to the state legislature and governor's office.

Haley also held several positions with the Western Growers Association in Irvine, Calif. He was vice president for government affairs from 1983 to 1987. Previously, he served as attorney and head lobbyist, representing the trade association in California, Arizona and Washington, D.C.

As AMS administrator, Haley will manage and direct AMS marketing services, including commodity standards and grades; commodity grading, classing and inspection for quality; commodity procurement and market news oversight. He will oversee the agency's regulatory programs, including marketing agreements and orders; and he will monitor research and promotion programs for beef, cotton, eggs, dairy products and other commodities.

Haley received a bachelor of arts degree from Arizona State University in Tempe; and a juris doctor degree from the Western State University College of Law in San Diego.

AMS is a service-oriented, user-fee agency with a federal workforce of more than 6,500 employees, supervisory responsibility for an additional 5,500 state employees, and an annual budget exceeding \$690 million.

## FINAL ORDER

An order amending the order regulating the handling of milk in the Eastern Ohio-Western Pennsylvania Marketing Area was signed on August 30, 1989, by Jo Ann R. Smith, Assistant Secretary, Marketing and Inspection Services, to be effective October 1, 1989.

The amended order will classify milk used to make buttermilk biscuit and pancake mixes as Class III rather than Class I. Prior approval from the market administrator of milk dumped at the plant by handlers to be classified as Class III is eliminated. The amended order provisions are the same as those previously mailed as part of the final decision.

## 1988 CONSUMPTION DECLINES

Per capita consumption of all dairy products came to about 585 pounds (milk equivalent, fat basis) in 1988, down almost 13 pounds from 1987 because Government donations fell. In 1988, 4.4 percent of consumption came from Government supplies, compared with 7.1 percent in 1987.

Smaller Government donations lowered consumption of butter and American cheese. Per capita butter consumption declined about 4 percent, while use of American cheese was down almost 6 percent. Consumption of other cheese varieties increased about 3 percent, not quite matching the 4-percent growth in 1987. Consumption of nonfat dry milk increased 8 percent in 1988. Per capita consumption of dry whole milk increased by a tenth of a pound, while ice cream declined by 0.5 pound. Cottage cheese consumption slipped slightly. While consumption of lowfat cottage cheese was virtually unchanged once again, creamed cottage cheese dropped another 7 percent.

1/ The Economic Research Service no longer separately estimates civilian and military use. The current consumption series differs slightly from the civilian consumption series previously published. Data represent domestic disappearance divided by total population including military overseas, except for fluid milk and cream that are based on resident population.

2/ Product pounds of commercial sales and on farm consumption. Commercial sales include whole milk, lowfat milk, skim milk, buttermilk, flavored milk and drinks, cream, milk-cream mixtures, sour cream and dips, eggnog and yogurt.

3/ Excludes cottage cheese.

4/ Preliminary or estimated.

## FEDERAL ORDER 33 MARKET SUMMARY FOR AUGUST 1989

Gross Class I utilization averaged 3,674,397 pounds per day during August 1989. On a daily basis this was an increase of 5.8% from the previous month and 6.5% less than August 1988.

The August 1989 Class I utilization of producer milk totaled 104,485,398 pounds or 54.6% of the reported producer receipts. This utilization percentage is .2% less than last month and 3.7% less than August 1988.

The average butterfat test for gross Class I utilization was 2.2% for August 1989.

Receipts from 2,954 producers by 26 pool handlers regulated by Order No. 33 averaged 6,172,069 pounds daily for August 1989. On a daily basis this was .4% more than last month and 4.8% less than August 1988.

Producers supplying the market decreased by 36 from the July 1989 total and decreased by 222 from August 1988. The daily average producer receipts per farm of 2,089 pounds was 33 more than the previous month. On a daily basis this is 47 pounds more than August 1988.

The August 1989 Class I price was \$13.37 per hundredweight for 3.5% milk delivered to pool plants in Zone 3. This was 21 cents more than the July 1989 Class I price and 99 cents more than the August 1988 price. Prices for Class I milk in parts of the marketing area other than Zone 3 reflect the specified location adjustment of minus 24 cents in Zone 1, minus 14 cents in Zone 2, plus 7 cents in Zone 4 and plus 15 cents in Zone 5.

The Class II price for August 1989 was \$12.39. This was 63 cents more than the July 1989 Class II price and \$1.41 more than the August 1988 Class II price.

The Class III price of \$12.37 for August 1989 was 61 cents more than the previous month and \$1.39 more than the August 1988 Class III price.

The September 1989 Class I price will be \$13.80 for 3.5% milk.

## FEDERAL ORDER 36 MARKET SUMMARY FOR AUGUST 1989

Gross Class I utilization averaged 5,646,782 pounds per day during August 1989. On a daily basis this was an increase of 4.9% from the previous month and 2.1% more than August 1988.

The August 1989 Class I utilization of producer milk totaled 175,007,654 pounds or 57.7% of the reported producer receipts. This utilization percentage is 2.2% more than last month and 4.2% more than August 1988.

The average butterfat test for gross Class I utilization was 2.2% for August 1989.

Receipts from 5,328 producers by 37 pool handlers regulated by Order No. 36 averaged 9,786,878 pounds daily for August 1989. On a daily basis this was 1.0% more than last month and 5.3% less than August 1988.

Producers supplying the market increased by 84 from the July 1989 total and decreased by 72 from August 1988. The daily average producer receipts per farm of 1,837 pounds was 11 less than the previous month. On a daily basis this is 76 pounds less than August 1988.

The August 1989 Class I price was \$13.33 per hundredweight for 3.5% milk delivered to pool plants. This was 21 cents more than the July 1989 Class I price and 99 cents more than the August 1988 Class I price.

The Class II price for August 1989 was \$12.39. This was 63 cents more than the July 1989 Class II price and \$1.41 more than the August 1988 Class II price.

The Class III price of \$12.37 for August 1989 was 61 cents more than last month and \$1.39 more than the August 1988 Class III price.

The September 1989 Class I price will be \$13.76 for 3.5% milk.
